

Acceptable Use Policy Acknowledgement Signatures

What is an Acceptable Use Policy and Why am I being Asked to sign this Signature Page?

An Acceptable Use Policy is a Federally required Policy for all educational programs that use any form of digital technology in their program; whether that technology is used by staff, volunteers, and parents of students or the students themselves. Several Federal and State Statutes govern the nature and details of this policy. As part of the Federal requirements all parents, staff, volunteers and students over the age of 13 must read the policy and sign the policy indicating that they have read it and understand it and will comply with the policy. All parents also understand that all children under the age of 13 are still governed by this policy and their use of digital technology in the school is required to be supervised and comply with the various provisions of the Federal and State Statutes governing the use of digital technology in educational programs.

If after reading our PreK Program's Acceptable Use Policy you have any questions, please speak with the Program Director and/or the Technology Coordinator for further clarification as needed. Thank you for your cooperation.

I have read the Acceptable Use Policy and understand all policies and procedures and agree to abide by them.

Family Name _____

Parent #1 signature _____

Parent #2 signature _____

Guardian signature _____

Date: _____

**These signatures are required to be on file.
Please sign and return to school. Thank You.**
